I5/20 July 2024

Cumulus Student Talent Camps are special student programs offered by the Cumulus Association to enrich the Cumulusian community and advance the mission and values of the association by offering new possibilities to students.
These Camps create inspiring exceptional learning environments that foster engagement, networking, collaboration, and knowledge exchange under the umbrella of art, media, design education and research in an open and friendly atmosphere that celebrates the increasingly diverse and global nature of the Cumulus "family." Each edition of the Camp is hosted and organized by a selected local host from among the Cumulus member institutions worldwide.

wednesday
// Workshop + Artificial Intelligence experience
// Visit to Historical town of Aquileia and Grado
// Dinner with tipical products inside an historical wineyard

"Journey Through Time: Exploring Aquileia's UNESCO Heritage and Grado"

Step back in time with our one-day adventure to Aquileia, a UNESCO World Heritage Site rich in historical treasures. You'll experience an immersive journey through this ancient Roman city, where every cobblestone street tells a tale of the past. Stroll among the evocative ruins of Roman forums, basilicas, and amphitheaters, marveling at the architectural mastery of antiquity. After the approximately 2-hour guided tour, we'll take you to discover Grado, the maritime gem of Friuli Venezia Giulia. Your exploration begins in Grado Vecchia, a hidden jewel nestled along the lagoon shores. It's an ancient fishing village, its pastel-colored houses reflecting in the tranquil waters, enchanting visitors with its timeless charm. You can then continue your stroll along the promenade, where sailboats gently sway on the water and seagulls soar in the sky.

We'll conclude the evening immersed in nature: Casa Dorigo will welcome us with a walk through the villa's lavender field, continuing into the vineyard surrounding the property. We'll watch the sunset over a glass of excellent wine produced in these lands and dine on typical products from the Marano lagoon.

Grado

18 July
thursday
// Workshop + company vitis
// A. Cravera and F. Lagonigro
Speech
// Dinner at Klefisch palace in
Pordenone city center
